1.25mm(Deck Width)304 stainless steel mesh coil tank.

2.Top Sliding Refill System.

3.Top airflow control to avoid leaking and condensation.

4.2 Capacity choices:3ml(straight glass)/4ml(Bubble glass).

5.Owl tank coil can work with manta tank/dominator tank/Nrg tank/TFV8 baby/big baby/TFV12 baby prince.

## How to Change Coil:

1.Empty the tank's inside e-liquid then screw down the deck.

2.Screw down the used coil and screw up the new coil.

3.Wet the coils with your e-liquid.

4.Screw up the tube with the deck.

## How to Refill Tank:

Hold the tank in hand upside or screw down it with a mod. Then find the "Triangle Mark" on the top cap, push the top cap as the mark showed to find the filling hole. Later, fill the tank with proper amount e-liquid. After that , push back the top cap and make sure the top cap closed well.

## How to VAPE:

Screw down the owl tank with a mod well, make sure contact is OK. Then press the fire button as long as you inhale from the drip tip, then release the button.

## Note:

1.Please drip a few drops of e-liquid into the coils and let the tank stand a few minutes to make sure the coils soak enough before the first use.

2.Please refill the tank in-time to avoid dry-burning.

3.Protect this device from direct sunlight, heat, moisture and mechanical impact.

4.The device must not be cleaned under running water! Use only a damp, lint-free cloth for external cleaning.

## Verification:

Scratch off the cover of the security label on the box to get the anti-fake codes. Then fill the codes into the input box on the [www.advken.com](http://www.advken.com) to verify. Finally, the results will come out later.
